

TROUBLE AT BELLOWS FALLS

Papermakers There Go Out on Strike

QUIT WORK AT 3 O'CLOCK

When the Time of Change of Shifts Came—About 250 of the Employees Are Out—Sunday Work Is Abolished.

Barre, Vt., March 12.—Obedient to orders from the papermakers' union headquarters at Watertown, N. Y., 250 union employees at the plant here of the International Paper company struck yesterday afternoon. About 150 men are still working, but it is probable that the absence of the strikers will force them to quit before long. None of the independent mills here are affected.

The men went out at 3 o'clock, the hour when the shifts are changed. The employees of the local plant voted at meetings of the papermakers' union, held Thursday night and yesterday, to go out on strike. This action was taken partly because of local grievances and partly because of the strikes in New York state.

The six independent paper mills here are not affected by the strike.

Of the 450 employees of the local plant of the International company, only about one-third are members of the papermakers' union, but it is understood the non-union men will join in the strike.

President Burbank has sent word from the company's headquarters in New York to transfer all the local orders to Wilder and other places. The Bellows Falls plant is one of the older factories of the company and the machinery is not of the latest pattern. For some time, it is understood, the company has seriously considered the matter of closing the plant.

The employees say that the cut of 10 per cent. made in wages two years ago has not been restored, although they claim President Burbank promised a restoration. Officials of the mill deny that Mr. Burbank made any such promise.

The operatives object to Sunday work, claiming that it means "hours" of 11 and 13 hours, seven days a week.

President Burbank issued Thursday orders that in the future the plant should be closed from 5 p. m. Saturday to 7 a. m. Monday.

The employees claim that they are not treated fairly by the company. They cite as an instance of two employees going to Boston to attend, as delegates, a meeting of the papermakers' union, and say that upon their return to Bellows Falls their places were filled by other men. The employees declare that anyone who holds an office in a union, or attends a union meeting, cannot keep his position at the factory.

Orders were received Thursday from the union headquarters at Watertown, N. Y., to declare a strike.

A conference between other organizations of this town and a committee of the papermakers' union, to consider means of avoiding a strike, was held yesterday morning, but was without result.

NO STRIKE AT WILDER.

No Trouble Anticipated at That Plant of the Company.

Wilder, March 12.—At the local plant of the International Paper company, where 330 men are employed, no strike is anticipated. At present only the pulp machines are running, most of the men being employed upon construction work.

FOR NEW RAILROAD.

Hearing on Pending Charter of Southern New England Line.

Providence, R. I., March 12.—A large representation of prominent railroad, business men and others appeared before the house committee on corporations at the hearing in the state house yesterday on the pending charter of the Southern New England railroad.

The charter was presented to the assembly on petition by the Grand Trunk railway several days ago, the plan being to extend the transcontinental system of the Grand Trunk to a tidewater terminal at Providence.

Many opponents of the measure, mostly representing other railroads of New England, were present.

There has been a general outburst of indorsement of the project on all sides among business interests since the petition was presented. City and town councils, business men's associations, commercial organizations, boards of trade and labor organizations that have gathered within the past three weeks have almost unanimously expressed commendations of the plan.

Several hundred persons crowded in to the state capital when the hearing was opened. The halls were crowded with over 300 more, who vainly sought admission.

George H. Holmes was the first speaker. Mr. Holmes, who introduced the bill, spoke upon the substance of the measure and cited the evident public sentiment in its favor.

TO CURE A COLD IN ONE DAY

Take LAXATIVE BROMO Quinine Tablets. Drugists refund money if it fails to cure. E. W. GROVE'S signature is on each box. 25c.

More Than 20

Ingredients give to Hood's Sarsaparilla its great curative power—power to cure many and varied complaints, including diseases of the blood, ailments of the stomach, troubles of the kidneys and liver.

Many of the ingredients are just what the profession prescribe in the ailments named, but the combination and proportions are peculiar to this medicine and give it curative power peculiar to itself. Therefore, there can be no substitute for Hood's. Get it in the usual liquid form, or in tablets called Sarsatabs.

LAURIER'S NAVAL POLICY UPHELD IN COMMONS

Canadian House Adopts Second Reading of Measure Providing for Sea Force Maintained by the Dominion.

Ottawa, Ont., March 12.—The Dominion government carried through the second reading of its bill for the construction of a Canadian navy Thursday night by a solid party majority of 41. The measure has been unsuccessfully fought by the Conservative opposition for a month, first by an amendment substituting a contribution to Great Britain of two dreadnoughts; then by a proposed building of a Canadian navy, and finally by a motion to kill the bill.

The effect of the passage of the second reading is to formally commit the house of commons to acceptance of the principle of the measure. The result of the vote was a foregone conclusion, the only question being as to the exact size of the government majority. The ultimate passage of the bill is certain.

The measure provides for a navy built and equipped in Canada, and manned by Canadians. Two vessels are to be brought at once from England, with experienced naval officers aboard, and these will be used as training ships.

Although many think Canada's contribution to imperial defense should take the form of a direct gift to the British fleet, the prospect of a navy of their own, with middies' berths for their young men, is attractive. Impetus to the shipbuilding industry is also expected to result.

JAMES A. PATTEN HOOTED.

Famous Cotton Speculator Driven from the Exchange at Manchester, Eng.

London, March 12.—A special dispatch from Manchester says that James A. Patten, the Chicago cotton and grain speculator, was hooted off the Manchester exchange yesterday afternoon and subsequently followed through the streets by a large crowd. He was obliged to find refuge in a business office.

Mr. Patten was roughly jostled in the exchange before he was hustled out into the street. Eventually the police came to his rescue and prevented the hostile crowd from following the speculator into the office, where he found temporary safety. Later he was smuggled out of this office and driven away in a cab.

The visit of Mr. Patten is keeping cotton men keenly interested and curious. Nobody can learn that he is speculating, but everybody believes that he has his eye on cotton and is feeling the pulse of the commercial markets of Lancashire. He has given two or three interviews of a general character, especially defending the ethics of his operations in the United States, but he says nothing that concerns vitally those interested in the cotton market.

Before sailing from New York, Mr. Patten said that he would retire from active participation in affairs on July 1, but asserts that he will never wholly lose his interest in the stock and grain markets. In connection with operations in the past, which have resulted in making big money for him, Mr. Patten said that in these cases he had simply taken advantage of a natural condition, in which the result was almost a foregone conclusion. "A man who studies the situation, uses good judgment and is enabled to take advantage of a short crop," said Mr. Patten, "naturally reaps the benefits of his knowledge. It is simply a matter of taking advantage of natural conditions in this great country."

A HISTORIC BELL.

That in Burlington Unitarian Church is 94 Years Old.

Burlington, March 12.—Information of historical interest to Burlingtonians yesterday came out in a letter received by City Treasurer L. C. Grant from Arthur H. Nichols of Boston. The letter states that the writer was endeavoring to trace the bells cast by Paul Revere, the Revolutionary hero, a complete list of which was recently found in his old stock book. It is stated that in 1816 a bell weighing 1,280 pounds was sold in the town of Burlington.

Mr. Grant made an investigation and ascertained that the bell mentioned was made for the Unitarian church, on October 19, 1816. Mr. Grant found by the original bill of sale that it has been in use ever since 1816 and is therefore 94 years old. The cost was 45 cents a pound and the total bill was \$582.65.

SLEEPLESS NIGHTS

Many a night's rest is spoiled by frequent fits of coughing—sometimes by a mere tickling in the throat that is so annoying as to prevent sleep. Kemp's Balsam will cure coughs if any medicine will, and will relieve the irritation in the throat. For all throat and lung troubles, take Kemp's Balsam. Drugists sell it at 25c and 50c a bottle.

STATEHOOD BILL FAVORED

It Will Be Reported by Senate Committee

MEXICANS IN NEW STATES

Not to Be Disfranchised—If They Were States Would Be Democratic—All Democrats But One Voted Against the Amendment.

Washington, March 12.—The Arizona and New Mexico statehood bill was ordered favorably reported by the Senate committee on territories yesterday. Certain amendments were adopted, which will permit all citizens who have resided in the territories for one year or more to vote on the ratification of the constitution of the proposed states. The effect of this will be to enact election qualifications in the form in which they existed prior to the recent acts of the territorial legislatures, which had the effect of disfranchising certain classes of citizens, notably Mexicans, and which was designed, according to charges made by the Republicans, to make the states Democratic, beyond any question, for many years.

In the form in which the Beveridge bill was drafted, residents of the territories would have been permitted to vote after a residence of six months, but Senator Dick moved to substitute a requirement of one year's residence. All members of the committee voted for the Dick amendment except Chairman Beveridge.

Democratic members of the committee sought to incorporate in the bill the requirement adopted by the Arizona legislature and apply this to both territories. The proposition was defeated by the votes of Senators Beveridge, Dillingham, Nelson, Burnham, Keen and Dick, Republicans; and Clark of Arkansas, Democrat. The affirmative votes were cast by Senators Frasier and Hughes, Democrats. The absentees were Senators Piles and Owen.

Another important amendment adopted yesterday sets aside one million acres of public land in each territory for the payment of county bonds, which have been specifically validated by acts of Congress. The bill cannot be taken up in the Senate until after disposition of the administration railroad bill.

FAVOR ROCKEFELLER FUND.

Bill to Incorporate Foundation Reported Favorably.

Washington, March 12.—The bill to incorporate the Rockefeller foundation was ordered favorably reported yesterday at an executive session of the Senate District of Columbia committee, following a statement made by Starr J. Murphy, the representative of John D. Rockefeller.

New York, March 12.—Denials that John D. Rockefeller, by the establishment of the Rockefeller foundation, is trying to avoid taxation on his fortune, were made here by Starr J. Murphy, his personal counsel.

"The foundation," said Mr. Murphy, "if chartered by the government, will come directly under the supervision of the secretary of the interior, who will at all times have opportunity to learn if the money applied to the foundation is being used for the purposes designated in the charter. It would be impossible for any part of the money given the foundation by Mr. Rockefeller to be set apart for his heirs. They would not be able to touch one penny of it."

"Mr. Rockefeller has no idea of giving over his whole fortune to the foundation. His heirs, I have every reason to believe, will be simply taken care of."

POINTS FOR DR. HYDE.

Charges Against Him Refuted by Two Members of Swope Family.

Kansas City, March 12.—Two members of the Swope family furnished testimony Thursday, which refuted some of the charges preferred against Dr. B. C. Hyde, in connection with the death of Colonel Thomas H. Swope and his nephew, Christian Swope, and the alleged plot to exterminate the Swope family by subtle poisoning. It had been alleged that Dr. Hyde insisted on giving repeated draughts of discolored water to Miss Lucy Lee Swope during a trip from New York to Kansas City. She denied this Thursday in a deposition verbally given before a master in chancery. He offered only one drink, she said, and that after she had remarked that she was thirsty.

FAVORS ANTI-BETTING BILL.

Special Committee of Canadian Commons To Report Measure.

Ottawa, March 12.—The racing interests of Canada have lost their case before the special committee of parliament, which has been dealing with the Miller race track anti-gambling bill. By a vote of 5 to 7 the committee has decided to report the bill favorably. It must pass the House and Senate before it becomes law. It aims to prohibit bookmaking on race tracks in Canada. Racing interests will continue the fight against the bill in its future stages.

SOUND KIDNEYS AND NO BLADDER MISERY

Backache Vanishes and Your Out-of-order Kidneys Act Fine After First Few Doses.

The most effective and harmless way to cure backache and regulate out-of-order kidneys, or end bladder trouble, is to take several doses of Pape's Diuretic.

You will distinctly feel that your kidneys and urinary organs are being cleaned, healed and vitalized, and all the miserable symptoms, such as backache, headache, nervousness, rheumatism and itching pains, inflamed or swollen eyelids, irritability, sleeplessness, or suppressed, painful or frequent urination (especially at night) and other distress, leaving after taking the first few doses.

The moment you suspect any kidney or urinary disorder, or rheumatism, begin taking this harmless preparation as directed, with the knowledge that there is no other medicine, at any price, made anywhere else in the world, which will effect so thorough and prompt a cure as a fifty-cent treatment of Pape's Diuretic, which any druggist can supply.

Your physician, pharmacist, banker or any mercantile agency will tell you that Pape, Thompson & Pape of Cincinnati is a large and responsible medicine concern, thoroughly worthy of your confidence. Don't be miserable or worried another moment with a lame back or clogged, inactive kidneys or bladder misery. All this goes after you start taking Pape's Diuretic, and in a few days you feel and know that your kidneys, liver and urinary system are healthy, clean and normal, and all danger removed.

Accept only Pape's Diuretic—fifty-cent treatment—from any drug store—anywhere in the world.

\$15,000 FINE AND SIX-YEAR TERM FOR OLEO FRAUD

Judge Landis Takes Action in United States Court—Prisoners Can Be Brought to Testify in Other Cases.

Chicago, March 12.—Summary action was taken yesterday by Judge K. M. Landis in the United States district court in sentencing violators of the federal laws regulating the manufacture and sale of oleomargarine. The court fixed the punishment of Samuel Driesbach, who pleaded guilty, at a fine of \$15,000 and six years' imprisonment in the United States prison at Fort Leavenworth, Kan. To Daniel Kozis, who also pleaded guilty, the court gave an 18 months' sentence in the house of correction.

William Broadwell, who was sentenced some days ago, must meet like punishment with Driesbach. Should the grand jury desire their evidence, they will be returned from the prison to testify.

FARMERS TO MEET IN ST. LOUIS.

National Convention of the National Union to Be Held on May 3-7.

Albany, Ga., March 12.—President Charles S. Barrett of the National Farmers' union has called a national convention of farmers at St. Louis, May 3 to 7. It is to discuss needed national and state legislation and to establish bureaus at different capitals to see that the demands of the farmer are heard and to devise means of making the farm more attractive, so that the proposed solution of the economic problem of to-day—"back to the farm"—may be made possible. President Barrett says in his call:

"This will be a national mass meeting for farmers, unparalleled in scope, probably in importance, undoubtedly in attendance, in the history of America. I invite not only every member of our organization, but also all agricultural organizations and all American farmers, without regard to location or organization."

"At no time in the history of the nation has the farmer been the object of more solicitude to thoughtful public men. Expert students of economics are warning us that unless the lot of the farmer be improved, unless more of his number be kept on the farm, we shall soon be depending on foreign nations for some of our food. It is therefore at this time that I invite the farmers of America to join hands, brain and heart in a council which shall thrash out issues close to the life of the nation."

COLLAPSES AT TRIAL.

Defendant in Venetian Murder Case Breaks Down.

Venice, March 12.—It was evident at the adjournment of court Thursday in the trial of Countess Tarnowski, for the murder of her husband, Count Komarowski, that Attorney Priukoff, one of her lovers, who is also accused of complicity in the crime and who had been on the stand for two days, was suffering from a severe nervous strain. No one was surprised yesterday morning, therefore, on the resumption of the trial, when the lawyer broke down completely and had to be removed to the prison. The trial was suspended.

A physician who was called in informally said that the return of the prisoner was out of the question for the present.

Piles Bring Despair

Take Courage! Internal Treatment Will Cure.

Piles make life unhappy and ruin the best disposition. Most sufferers have been bitterly disappointed by many failed attempts to find a cure. A medicine in tablet form, taken internally, that avoids the unpleasant features of ointments, suppositories and operations, and cures thoroughly by removing the inside cause, is surely worth trying, especially as Burt H. Wells, Barré, Vt., guarantees it. Dr. Leonard's Hem-Roid costs \$1 for a large box of 30 days' treatment. Dr. Leonard's Co., Station B, Buffalo, N. Y. Write me for booklet.

ALLDS IS HARD HIT

Identified With Road Machine Company

THIS IS SHOWN TO HAVE HAD

"Pooling" Agreements—Senator Even Acted as Counsel for the Concern. Big Bank Deposits by Accused During 1902-06 Sessions.

Albany, N. Y., March 12.—The Senate bribery investigation lasted only an hour and a half yesterday, and half an hour of this time was taken up by arguments over the admission of testimony and a discussion of future plans. Attorney Osborne had Senator Allds on the stand under cross-examination during the whole session and when adjournment was taken at one o'clock, he announced that he was through with the defendant except for one matter which he and Attorney Littleton had agreed to defer until Tuesday. The fact that Littleton knew about this matter proves that it will be no surprise to the defendant, but considerable curiosity exists regarding it among the senators.

Tuesday's session also will show whether the "prosecution" can put in evidence a letter from the Acme Road Machinery company, in which Allds was a stockholder, by which they hope to show that Allds was indirectly interested in pool bidding similar to that of Conger's bridge companies. Chairman Davis reserved decision on the question.

While the counsel said yesterday they hoped to finish their presentation of evidence by next Wednesday, it is possible that interruptions and debates may prolong this part of the trial until the end of next week. The summing up, however, has been set definitely for Tuesday and Wednesday of week after next.

MADE TWO FLIGHTS.

Paulhan Was Successful on Long Island Yesterday.

New York, March 12.—Louis Paulhan, the French aviator, made two short exhibition flights yesterday afternoon at the Jamaica (L. I.) race-track in the Farman biplane, in which he broke the world's record for height at Los Angeles. On neither of yesterday's flights did Paulhan go higher than 250 feet, and the distance in each case, a tripe more than two miles, was made in about five minutes.

Although an 18-mile wind was blowing, Paulhan's control of his machine was perfect. It ascended easily in less than a hundred yards' ground run. A crowd of three hundred inside the track enclosure witnessed the exhibition by invitation, while thousands outside cheered. The Frenchman made no changes in the aeroplane yesterday, using even the tail rudder and warped wings, which the Wrights claim as their patents. He will make flights each day, weather permitting, until March 20.

FORM GREEN MOUNTAIN CLUB.

Object Is the Fostering of Mountain Climbing and the Care of Forests.

Burlington, March 12.—The Green Mountain club, with the object of creating and fostering interest in mountain climbing and the care of mountain forests, etc., was formed at a meeting yesterday afternoon at the Van Ness House, of about 25 men interested in the project. James P. Taylor of Saxtons River, who was instrumental in calling the meeting, was chosen president, a constitution and by-laws were adopted and other officers chosen. M. E. Wheeler of Rutland, who was present, gave the newly formed club his check for \$100 to aid in the work.

Any person of legal age may become a member of the club, and it is planned to form auxiliary clubs in every county.

Judge Seneca Haselton was elected vice president; treasurer, C. W. Brownell. The council follows: Addison, E. W. Eddy of Bristol; Bennington, C. H. Davis of Manchester; Caledonia, Rev. J. F. Snyder of Danville; Chittenden, John E. Allen of Westfield; Essex, Porter H. Dale of Island Pond; Grand Isle, N. W. Fisk of Isle La Motte; Lamoille, H. G. Thomas of Stowe; Orange, C. H. Morrill of Randolph; Orleans, Governor Putney; Rutland, Arthur Granger of Rutland; Washington, C. C. Graves of Waterbury; Windham, Rev. Prof. of Bellows Falls; Windsor, Frank H. Clark of Windsor.

RESERVOIR GIVES WAY.

Large Part of Juleburg Reservation District in Colorado Flooded.

Denver, March 12.—The reservoir of the Juleburg reservation district gave way yesterday, flooding a large section and causing much damage. No loss of life is yet reported. A section of the branch line of the Union Pacific road track, was washed out and wires are down.

YOU CAN CURE THAT BACKACHE.

Talk along the back, dislocate, headache and general lumbago. Get a package of Mother Gray's ASTHMA-LEAF, the pleasant and sure cure for all Asthma, Hay Fever and Urinary troubles. When you feel all run down, tired, weak and without energy, use this remarkable combination of nature's herbs and roots. As a regulator it has no equal. Mother Gray's Asthma-Leaf is sold by Druggists or sent by mail for 25 cts. Sample sent FREE. Address, The Mother Gray Co., Le Roy, N. Y.

There is a satisfaction to the dealer in knowing that he has provided his patrons with the best there is in clothing and just because we have done this your special attention is called to the

Morse Union-Made Suits and Overcoats

which we are showing in our Spring arrivals. You'll be pleased with this line. Drop in now with the idea of doing the right thing by yourself for Easter.

Moore & Owens,

Barre's Leading Clothiers, 122 North Main Street, Barre, Vermont.

AD WOLGAST, THE NEW CHAMPION

Man Who Beat Nelson Has Had Eventful Career—May Take on Freddie Welch.

Who will be Ad Wolgast's next opponent? This is the main topic of conversation in the pugilistic world at present. Since he wrestled the lightweight championship crown from Bat Nelson the "Milwaukee Wildcat" has received offers from Packy McFarland, Owen Moran, Tommy Murphy, Joe Gans and Freddie Welch, the British champion. There is little doubt that Wolgast will take things easy for awhile, as he has been hard at it for the last two years or more. When he does decide to fight he will most likely take on Welch. Wolgast figures that several clubs would be willing to hang up good sized purses for the contest and that he would experience little difficulty in stowing away the Britisher. Wolgast has also promised to take on Owen Moran.

Adolph Wolgast, a featherweight a year ago and today champion lightweight of the world, has had a wonderful pugilistic career, and his victory over Nelson was all that was needed to cap the structure his wonderful fighting powers and gameness built. With a record totaling seventy-one fights Wolgast has but once been

losing bout was with this same boy. From then on Wolgast has fought all comers, and his record alone, carefully studied, proves that Battling Nelson, wonderful warrior that he is, should not have been made a 2 to 1 favorite over him.

In his fight with Lew Powell in San Francisco Wolgast was also the short end, and he amazed the sporting world by beating his opponent with little trouble in twenty rounds.

When the majority of newspaper writers gave the decision to Wolgast when he fought Nelson in Los Angeles some time ago it was a terrible blow to the Dana. He is as proud as a prima donna, and to think that this new boy had outboxed him in a ten round bout bothered him considerably. For months Nelson had been longing for another crack at what he considered a soft mark.

The day before the fight he said that Wolgast was in for the finest trimming of his young career. Had Nelson put the reverse English on the wire he would have tipped it right.

FLORIDA MOTORBOAT RACES.

Annual Regatta Promises to Be One of Best Ever Held on Lake Worth.

The officers of the Palm Beach Power Boat Association in charge of the four-day regatta, which commences March 15 are rapidly completing the details which go to make affairs on Lake Worth, Florida, the successes they have been in the past.

The owners of racing craft have commenced to ship their boats to Palm Beach, so that they can have trials in private before the dates of the races. Among the latest entries are some of the most noted racing craft in the United States, and it is quite possible that the recently exhibited Premier power boat made at Boston will be one of the contenders for the big prize of \$2,000 in gold.

REVIVE BASKETBALL LEAGUE.

Eastern Colleges Expect to Bring Out Organization Dead Since 1907.

The Eastern Intercollegiate Basketball league, which went out of existence in 1907, probably will be revived for the season of 1910-11, according to an announcement made in New York recently. The prospective membership includes Yale, Princeton, Columbia and Pennsylvania, with the possible addition of Cornell and Harvard.

The league was suspended at a time when basketball was attracting unfavorable attention because of its roughness. The college men believe that by the next season the rules committee will have worked up a game that will meet all requirements.

Two Friends Fall Out.

Adam Zawroz—They say Rockefeller's income is \$24,000,000 a year. Would you do it if you had all that money?

Job Sturky—Gosh, I know wot I'd do with part of it! I'd treat you to a Turkish bath.

(They fight).—Chicago Tribune.

Chastening Father Time.

"So," remarked a gentleman who was calling on a fascinating widow, "you are mamma's little man?"

"Not when they're gentlemen calling," answered the widow's young hopeful. "Then I'm mamma's baby boy."—Birmingham Age-Herald.
